

Recycling at home and at our school

Types of bins

Plastic

Mixed waste

Paper

How can we improve recycling at school?

- more competitions
- students must be more interested
- more composters
- don't use non-recyclable products

Composters

Recycling at home:

- A lot of things can be recycled at home, for example:
 - plastics
 - glass
 - paper
 - cardboard
 - Electrical items
- It is also possible to sort municipal waste or mixed waste, into which everything is thrown together. But the only things that must not be thrown there is electrical items, old drugs, chemicals and fluorescent lamps

- We have only one bin at home, into which we throw everything, such as paper, bio waste, packaging, sometimes even bottles. But, I want to start recycling more, for example by recycling plastics, paper and bio waste
- I know a lot of people who recycle at home but I also know those who don't recycle just like me

How we can improve it?

- Buy more bins for paper, plastics, glass,...
- A lot of things can be recycled at home:
- Toys
- Clothes
- Electrical items - PC, TV
- Chemicals

- We have one bin at home, but glass, paper and plastic we carry it to the main bins outdoors.
- I would like to recycled more at home.

The results of the recycling questionnaire

- Are you interested in the environment ?
- Yes 93,3 %
- Most people are interested in the environment.
- But there are also a few people who are not interested in the environment.
- Is there a recycling system in the place where you live ?
- Yes 86,7 %
- Not sure 10 %
- In most places we can find recycling places but in some we are not sure if they are located here.

- How much do you know about recycling waste?
- 60% a little
- 36,7% a lot
- A lot of people don't know much about the recycling system, but there are also those who know a lot about recycling.
- How often do you recycle?
- 66,7 every day
- 26,7 every week
- Many people recycle every day or week which is good although there are some who recycle once a month or not at all but over time they will improve and improve.

- Is recycling important for your country ?
- 66,7% yes
- 30% To some extent
- Do you think the way you recycle is worth doing ?
- 80% yes
- 13,3 not sure
- Usually people think the way they recycle is worth it, but some are not sure
